Lacrosse Blast – Adapting for Field Lacrosse (NCAA)

Overview:

- Field game based off of Indoor engine using the :30 clock increments.
- Use the regular LB rules and game book with the Platoon rules. Other variations are described below.
- Positions are:
 - A – Attack, used in stack 1 or 2
 - M – Midfielder, used in stack 2, 3, or 4
 - D – Defense, used in stack 4 or 5
 - G – Goalie
- Ratings at the bottom of the Attack, Midfield, and Defense cards:
 - FO – Face off rating.
 - Many teams have a single face-off specialist. In those cases the face-off rating represents the entire team’s face-off percentage. Some teams will have multiple players with face-off ratings. Usage can be alternated as desired.
 - YR – Class
 - FR = Freshman
 - SO = Sophomore
 - JR = Junior
 - SR = Senior
 - GS = Graduate Student
 - GP – Games Played
 - Those flagged with an asterisk indicate starters
 - PEN – Penalty Rating
 - The Fight and Injury ratings have been removed.
 - Fight roll results will not result in a fight but instead set momentum and possession. How to resolve a fight roll is explained later.
 - If an Injury occurs, use the GP rating against team games played. If the player has appeared in all games or is a starter, rotate them to the bottom of the stack. If not, remove them from this game and replace with a bench player.
- Ratings at the bottom of the Goalie cards:
 - ST – Start
 - Same rating system as LB and HB to determine starting goaltender.
 - YR – Class
 - MIN – Minutes played in goal, to help gauge usage of backups
 - PEN – Penalty Rating

Face Off Differences:

- Unusual Result roll on face-off

- Convert any Behavior roll into an Odd Penalty roll.
- Any Major Penalty from Face Off chart are 1-minute, no-release penalties.

Game Action / Normal Strength Possession Differences:

- 2 – Fight:
 - Instead of generating a fight, this roll will set momentum and provide ball possession. Picture the action as a big hit or hustle play to gain momentum and control the ball. Although you will use the fight chart to determine which team gains momentum and possession of the ball, no punches are thrown and no penalty is assessed.
 - Conduct a single dice roll on the FIGHT chart.
 - If the HOME team lands a punch from the chart, or a visitor player is knocked-down or injured, award MOMENTUM and the ball to the HOME team.
 - If the VISITOR team lands a punch from the chart, or a home player is knocked-down or injured, award MOMENTUM and the ball to the VISITOR team
 - If the REFEREE steps in, MOMENTUM is reset to neutral. The ball is considered to have gone out of bounds. Award possession based upon the normal out-of-bounds roll procedures
 - Ignore all injuries caused by resolving a Fight roll.
- 5 – Penalty:
 - A 2-3 or 3-2 roll immediately ends the sequence. There is no “slow-whistle”.
 - Determine the penalty as usual. Momentum rules apply. Use the regular way of indicating which card stack is vacated while the penalty is being served.
 - Minor Penalties are 30 seconds (one time segment). One goal releases the penalized player.
 - Major Penalties are 60 seconds (two time segments). One goal releases the penalized player.
 - Ignore any reference to fight rating on Penalty Event chart.
 - Penalty Kill – If the CIRCLE symbols are triggered on a Penalty Kill, the remainder of the Penalty (:30 or :60) is killed off.
- 6 – Crash
 - Do not award momentum to the team winning a Crash on HIT Quality.
- 7 – BOXLA Blast:
 - On 4-3 or 5-2 rolls
 - Award the goal as described.
 - Instead of assigning a penalty, assume an even-strength goal.
 - Use the penalty selector or roll one die (6=choice), and instead of assigning a penalty simply rotate the player on the top of that stack to the bottom.
 - On 6-1 rolls, mark off only six (6) 30-second segments instead of ten (10).
 - Resolve all other BOXLA Blast readings as normal.
- 8 – Scramble
 - Do not award momentum to the team winning a Scramble on HIT Quality.

- 9 – Loose Ball
 - Ignore any Cheap Shots delivered on three consecutive Loose Ball rolls.

Game Action / Power Play Possession Differences:

- No special differences from the Power Play Possession Chart

Game Action / Empty Net Possessions Differences:

- This Chart will not be used. There are no Empty Net possessions.

Plays and Shots

- Reduce the goalie's SAVE rating by one star for every star over 6 that the PLAY shot combination creates.
- Example 1:
 - The player in o1 is rated with 4 Shot stars and 3 Assist stars
 - The player in o2 is rated with 2 Shot stars and 4 Assist stars
 - The goalie is rated with 5 Play Save Stars and 3 Shot Save Stars
 - An o2-o1 PLAY Shot is rolled. This would result in a power rating of 8 stars for the shot (4 assist stars from o2 + 4 shot stars from o1).
 - The goalie rating for this shot would therefore be reduced by 2, from 5 Play Stars to 3 Play Stars.
- Example 2:
 - The player in o1 is rated with 4 Shot stars and 3 Assist stars
 - The player in o2 is rated with 3 Shot stars and 4 Assist stars
 - The goalie is rated with 5 Play Save Stars and 3 Shot Save Stars
 - An o1-o2 PLAY Shot is rolled. This would result in a power rating of 6 stars for the shot (3 assist stars from o1 + 3 shot stars from o2).
 - The goalie rating for this shot would be 5 Play Stars as the shot power is not greater than 6.

Player Substitution:

- Each stack includes one starter and two reserves
- Substitutions can be made at any time, and simply involve switching players into and out of the stack
- Positions are assigned to stacks as follows:
 - Stack 1 – Attack
 - Stack 2 – Attack or Midfielder
 - Stack 3 – Midfielder
 - Stack 4 – Defense or Midfielder
 - Stack 5 – Defense

Pulling the Goalie:

- This option will not be used in Field LAX

Overtime:

- Overtimes are “sudden-death”

Advanced Options:

- Forward at o3 instead of Transition player – use this option
- Face-off Specialist – use this option
- Lineup Adjustments – use this option if desired
- Goal Charge Shot – ignore this option
- Empty Net on Slow Whistle – ignore this option
- Let ‘em Play Final Minutes – use this option
- Cheap Shot Options – ignore this option
- Scoreless Stretch Ends Momentum – use this option if desired
- Additional Penalty Detail – use this option if desired
- Goalie Start Ratings – use this option, or select starting goalie based upon minutes played
- Strategy Cards – Instigate and Cheap Shot strategy cards cannot be used. All others are eligible for use if desired
- Normal Strength Face-Off result of 11 – NCAA rules state that after two Face-Off violations are committed by a team in one half, the 3rd and any subsequent violations in that half result in a :30 penalty. When a Face-Off result of 11 is rolled on the Normal Strength chart, award possession as stated, and record a Face-Off Violation against the team not gaining possession. Should a team amass a third or subsequent violation, assess a :30 second penalty against that team. The Power Play starts immediately.

Final Notes:

- Use the LB Action Book and Rules as described for items not covered in this guide.
- These differences were setup specifically for NCAA. Additional rules or variances for MLL or other Field LAX leagues would have to added / incorporated separately.
- Statistics for Shots, Ground Balls, Penalties, and others are abstracted and not intended to be tallied. The actual number of shots etc., may not be completely accurate. However, the teams should score and behave offensively and defensively within reason.
- Regarding Assists – Always use the assist ratings when calculating the shot power. For those keeping statistics however, only credit assists on goals scored for BOXLA Blast 4-3, BOXLA Blast 5-2 results or when a goal is scored on a 12-Spectacular Save possession. That seems to keep the assist numbers more realistic.
- Have Fun & Enjoy!
