ROLL AGAIN	12	MAJOR, highest PEN player

On dice roll of "7," multiple penalties are called; roll again (two dice, added) on the above chart to determine which players are involved. Roll once, read both the VISITOR and HOME players and assign penalties as indicated.

NOTE that penalties do not necessarily occur simultaneously in this instance. It's possible that the one penalty occurred early in the given minute and another occurred late. For ease of play, use players on the ice that minute to assign penalties.
