STEPS TO USE THIS CHART

- 1) Determine the home team grade and find their row on the left.
- 2) Determine the visiting team grade and find their column on the right.
- 3) Roll a black and white die, reading black die first and find the range.
- 4) A green result is a win for the home team. A red result is a win for the visitor.
- 5) A gray result is a tie. Reroll the dice and find the home team OT result.
- 6) If still tied, roll on the home team SO. If the number is in the range it is a home win.
(alternatively, you can roll three times with each teams grade to simulate the shootout.)
- 7) To get the score, figure out how big of a win the winning team had. Determine how many points away the winner was from a tie. For example, if the tie range starts at 33 and the roll was a 21, the difference is 8. Use this difference to determine whether to roll on the close game (1-6 pts), normal (7-12) or blowout (13+ table). If the game was a tie, roll on the tie table. Roll 2d6 and add them and lookup the final score.
