A Pioneers Set supplement for History Maker Golf Pre-Great War Edition II

I have been having a blast re-playing turn-of-the-last-century Open Championships with British greats from the Pioneers Set of *History Maker Golf.* There have been some fantastic final round finishes. This is truly a special game.

Match play was an important part of Pre-Great War golf and is fun to re-create using HMG. One of the most prestigious professional tournaments at the time was the *News of the World* Match Play tournament, established in 1903. If you're looking to put your British Pioneers through their paces, this is another excellent way to do it.

The tournaments were not held on the links courses found in the Open rotation. Instead, inland English courses were used. Two of the courses that were heavily featured in the *News of the World* Match Play championship were jewels of English heathland golf— Sunningdale's Old Course and Walton Heath's Old Course. To this day, they consistently rank among the best courses in England and continue to host big events.

When you play these courses, you will see the unique challenges of heathland golf. Their course control scores are about average (3.0). However, the penalties can be severe for missing the fairways. Playing from the heather is bad enough, but playing from a heathered bunker? Even on cordial holes, the possibility of putting poorly is unusually high.

I'd like to give another warm thank you to Gideon Eames for reviewing this set and offering his comments. The cards are better for his input.

Historical Scenarios

Matches were contested over 18 holes in every round except the Final, which was over 36 holes. Of all of the golfers in the Pioneers set, these competed in the *News of the World* Match Play tournament between 1903 and 1913:

J Braid	H Vardon	W Fernie
JH Taylor	T Ray	A Massy
S Herd	J Hutchison	W Park Jr

The 1903 News of the World Match Play tournament - Sunningdale Golf Club

JH Taylor faced Sandy Herd in a quarterfinal match with James Braid facing the winner in the Semi-finals. In the meantime, Ted Ray has dominated his end of the draw and awaits Braid, Taylor or Herd in the inaugural tournament's Final.

The 1905 News of the World Match Play tournament - Walton Heath Golf Club

Harry Vardon, James Braid, Jock Hutchison and JH Taylor all made it to the Second round. Though they did not play each other in the tournament, what would have happened if they had faced off in the Semi-finals?

The 1907 News of the World Match Play tournament - Sunningdale Golf Club

The strongest Semi-final field to date. Ted Ray played James Braid, while JH Taylor opposed Harry Vardon for a place in the Final. Can James Braid win his third News of the World Match Play trophy?

The 1911 News of the World Match Play tournament - Walton Heath Golf Club

James Braid makes his fourth appearance in the Final, where he awaits the winner of the Ted Ray-Harry Vardon Semi-Final.

The 1912 News of the World Match Play tournament - Sunningdale Golf Club

Harry Vardon and Sandy Herd meet in the Third round of the tournament. One of them should be able to continue through the Fourth round and into the Final, where Ted Ray awaits. Will Harry Vardon be able to repeat history and win his first News of the World Match Play title?

Sunningdale Golf Club

Sunningdale Golf Club is one of England's most prestigious courses and may be its best example of an inland heathland course.

Willie Park Jr. designed the course, which was later updated by Harry Colt. In 1926, Bobby Jones played the perfect round of 66 at Sunningdale-- 33 shots, 33 putts.

Sunningdale has been the site of several News of the World Match Play tournaments as well as the European Open throughout the 1980s. The club have also hosted the Ladies' Open Championship and the Walker Cup. It is currently on the rotation of the Senior Open Championship.

Statistics were taken from the 2015 Senior Open Championship and extrapolated for a higher level of professional golf.

To represent the heathland nature of the course, a purple rough symbol has been used along with a consistent dagger notation. Hitting your ball into heather carries a fair amount of risk. It may sit up and allow for recovery or get buried.

Walton Heath Golf Club

Walton Heath Golf Club has a rich and storied tradition in English golf. James Braid was the club's professional for its first forty five years. Prime Ministers regularly played the course. King Edward VIII was its first Captain and his brother, King George VI, its patron.

In addition to hosting the News of the World Match Play tournaments, the club has frequently held the Amateur Championship. Starting in 1978, Walton Heath was a common site for the European Open throughout the 1980s. In 1981, the club welcomed one of the greatest US teams in Ryder Cup history.

Walton Heath's Old Course and New Course are intertwined on the property. For both the Ryder Cup and the British Masters, a Composite Course was used. This set uses the Masters' version-- holes 2 & 4-13 from the Old, 12 & 13 from the New and 14-18 from the Old.

Statistics were taken from the 2018 British Masters and extrapolated for a slightly higher level of golf.

To represent the heathland nature of the course, a purple rough symbol has been used along with a consistent dagger notation. Hitting your ball into heather carries a fair amount of risk. It may sit up and allow for recovery or get buried.
