**INSTRUCTIONS:** This add-on is designed to allow you to quick-play the entire college tournament in under an hour. You'll determine each game's Underdog and Favorite (we've basically given the home advantage to the favorite), the Underdog is the team with the LOWER Tournament Grade. If both teams have the same Tournament Grade, roll a decider die to determine the Underdog, or choose one arbitrarily. Then match up the Tournament Grades on the chart, which will result in a "win range" for the Favorite. Then, roll two dice, a black die and a white die, reading the black die first (i.e., a black "2" and a white "1" would be read as "21"). If the number falls within the "win range" of the Favorite, the Favorite wins the game and advances. If you roll an exact number of the win range (either an "11" or the last number of the range), the game "goes to overtime." Roll a single die to determine who wins: "1" or "6," the Underdog pulls off the upset in overtime; "2" through "5," the Favorite hangs on for the win.

**EXAMPLE:** East Region, Connecticut (AAA) vs. Stetson (D+); Connecticut is the Favorite, with a win range of 11-62. On a dice roll of 12 to 61, Connecticut gets the win. On a dice roll of 63 to 66, Stetson pulls off an upset win. On a dice roll of "11" or "62," the game goes to overtime, roll a die to determine the winner ("1" or "6," Stetson wins, "2" through "5," Connecticut wins).
